. . . some specific song or at least happy songs to help you to achieve your goal and then you have a new video. Try to find a video that you enjoy and then trim the video. If it is a short clip, you may select the entire clip and then cut some sections of it. If it is a long video, you may play it on Coub and then click on the little box and choose your preferred length for the video. If it is a really short video, you can also shorten it by yourself. The best thing is that you can share your video with the world on Coub. So you need not worry about your privacy. Steps To Get Started If you want to make video loops with more fun, you need to do some actions. 1. Choose a video You can choose any video on YouTube and select a video that you can remember and have fun. 2. Trim the video You can choose a video for your video loop. Usually, the best part of the video is the part you want to use for your loop. But you can always choose the part that you think is more interesting. . . . It is recommended to keep the best part of the video and cut out all the parts you do not need. 3. Search for songs It is time to add music to your video. You need to find a song or songs that you enjoy. Then the best part is you can add as many songs as you want to the video to give your video more fun. If you can not find songs that you like, you can simply add some happy songs to help you to achieve your goal. The most important is that you have to find a song that can express the feeling of what you want to do. 4. Trim the video and adjust the length You can trim the video to make it more special. It is a good idea to make sure the video is not too long. The best part of the video will have higher play time. You can trim the part of the video that you think has the most play time. How to edit a video clip? Let's talk about how to edit the video clip. The first step is to find a video you want to edit. There is no difference between videos you want to edit on your computer or the videos 82157476af
